1. The following is an examiner's statement of reasons for allowance: according to the pre-appeal conference decision dated 4/4/2007, the reviewers found claims 1-6 to be allowable. It was discussed in said conference that the characteristics presented in claim 1 along with the X-ray diffraction data and the melting point difference is not inherent to Kaspersen et al. Thus, the only remaining prior art rejection under 102(b) over Kaspersen et al. has been obviated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
